

I'm not sure that how long do you want the blurb. This is my proposal.

If do you want know all about the Shot put in World Indoor Championships, you must get in your bookcase that incredible compilation of datas and curiosities. I have had a very nice time reading numbers and words, and they have recalled old memories from my athlete career. I never can't forget that afternoon of march in Birmingham, when pick six perfects shots up in the air, and was rewarded with the gold medal, only by one centimeter. This text is a piece of the history of sport and I desire the best for both, writer and book.

Kind regards, hugh in tons and power.

Man Martínez
